Your Personal 3M Car Care Plan

Follow these guidelines for your personal 3M car care plan and if you need to refresh your knowledge, the links take you back into the videos.

Every 12 Months

- » Follow the same steps as weekly but also include:
- » After washing and rinsing the car:
- » [Clay the vehicle](#) if you can feel contaminants on the surface (rough texture)
- » Thoroughly clean your sponge or mitt afterwards
- » Wash the car again to remove any residue
- » Dry the car all over, including wheels and tyres and inside door shuts
- » [Remove light scratches](#) in the paint with 3M™ Scratch Remover on a cloth or foam applicator
- » Remove residue with a microfibre cloth
- » Continue as in weekly
