**3M**

## Your Personal 3M Car Care Plan

Follow these weekly guidelines for your personal 3M car care plan and if you need to refresh your knowledge, the links take you back into the videos.

### Weekly

- » Fill 2 buckets: one with warm soapy water and one with clean water
- » Rinse the car thoroughly from top to bottom using a pressure washer or hose
- » [Wash the car](#) top to bottom using straight lines and light pressure and be sure to:
  - Rinse your sponge/mitt regularly in the clean bucket
  - Clean small areas of the car at a time and rinse off with a pressure washer or hose
- » Clean the sills and arches last of all
- » Thoroughly clean your sponge or mitt afterwards
- » Spray the [wheels and tyres](#) with 3M™ Wheel and Tyre Cleaner
- » Agitate with a wheel brush or clean with a sponge
- » Rinse off thoroughly with clean water
- » Dry the car all over, including wheels and tyres and inside door shuts
- » Apply 3M™ Tyre Restorer to a cloth or foam pad and wipe over the tyre
- » Clean the [interior and exterior](#) glass and buff to a shine
